## Scope concept analysis:

| Student Name:                  |        |         |           |         |
|--------------------------------|--------|---------|-----------|---------|
| Date:                          |        |         |           |         |
| Project Name:                  |        |         |           |         |
| Estimated Functionality Tasks: | Simple | Do-able | Difficult | Extreme |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
| Scope Conclusion:              |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
|                                |        |         |           |         |
